

Relationship-Based Professional Development in Minnesota

Relationship-Based Professional Development (RBPB) support focuses on learning through one-on-one interactions between practitioners and coaches, consultants, or mentors. The goal of this type of individualized support is to improve children's developmental outcomes by increasing practitioners' knowledge, skills, and abilities. RBPB Specialists provide practitioners with competency-based expert guidance and customized support to foster professional growth and career achievement. RBPB Specialists do more than give advice and support! Specialists promote high-quality care and teaching practices based on research-based best approaches and strategies in the field (CEED, 2016).
